\$1 One rack of odds and ends—Dresses—Skirts—Coats	now	\$1

Lento Grip
106 108 S. MAIN ST.
The Satisfactory Store

This rash may become serious.

Some people are inclined to neglect a slight rash. They consider it a mere trifling and expect it to disappear next day. On the contrary this delay permits the rash often times to become more malignant in nature, and consequently more difficult to overcome.

Save yourself hours of torture. On the first indication of soreness to the touch, an itchy and inflamed skin, apply a little of the famous healing ointment prepared especially for the treatment of such ailments.

VICTORY LOAN IS ATTRACTIVE, SAYS SECRETARY GLASS

Efforts to Make Issue Good for All Purposes Have Been Aim of Department Since Loan Was Contemplated.

SHORT TERM NOTES ARE ALSO BEING CONSIDERED
Extension of Present Powers of War Corporation to Make \$1,000,000,000 Loan to All Exporters Discussed.

WASHINGTON, Feb. 14.—Secretary Glass told the house ways and means committee that it was apparent "something must be done to make the bonds or notes of the Victory Liberty loan more attractive than their predecessors," and asked that congress give him authority to fix interest rates and determine exemptions from taxation according to financial conditions existing when the loan is floated in April.

The head of the nation's financial system also urged that authority be given the war finance corporation to make advances to exporters not to exceed \$1,000,000,000 and that the purposes for which the treasury may make loans to foreign governments be broadened. Mr. Glass said both provisions were necessary to restoration of the country's foreign trade and would be mutually helpful to this government and the allies.

Mr. Glass told the committee that at the rate disbursements are being made, it was apparent that only a radical reduction in the remaining months of the fiscal year could bring the expenditures within the \$18,000,000,000, which former Secretary McAdoo had hoped would cover the government's expenses. Cash disbursements during the first ten days of February showed a very gratifying result, but Mr. Glass pointed out that heavy payments on informal war contracts were being held in abeyance until congress acted on pending legislation affecting them. Under these circumstances and with a floating debt of \$2,000,000,000 in treasury certificates, increasing approximately \$1,400,000,000 each month, he thought the committee would not be surprised by his recommendation for authorization of an additional \$1,000,000,000 issue of bonds. There remain unissued under previous legislation slightly in excess of \$5,000,000,000.

It is needless to say that the treasury does not contemplate the issue in connection with the Victory Liberty loan of any such amount of bonds as \$1,000,000,000, Mr. Glass said, adding that "it seemed wise to suggest an increase to a figure which would seem to represent the maximum possible amount of the bonded debt growing out of the war."

As an alternative to the issue of bonds, he suggested authorization of issue of notes limited to \$10,000,000,000 and increase in the maximum amount of treasury certificates from \$5,000,000,000 to \$10,000,000,000, not that the three items should be at all cumulative, but that the treasury should have the power to finance the government's operation in the most economical way.

Methods to Sell Bonds.
"It may be desirable to adopt all of these methods in succession," Mr. Glass said. "Conditions in April might be such that it would be wise to issue a short-time note bearing a relatively high rate of interest and carrying with it the privilege of conversion into bonds bearing interest at a lower rate and having a longer maturity. On the other hand, it might be desirable to make an alternative offer for bonds and notes to the subscriber a choice between the two."

"I am by no means convinced that conditions will be such in April as to necessitate an increase in the interest rate over that provided in existing law to an important extent if at all, yet if I were obliged to determine now, the lowest rate at which I could undertake with certainty to finance the requirements of the government when the issue is offered in April, I should be obliged to name a maximum rate much higher than that which in my opinion is as favorable as I expect they will be in the interval, will, I hope, be sufficient to float the loan."

The floating debt, represented by treasury certificates now outstanding, and to be serviced by the nation's war bonds, Mr. Glass said, is a heavy burden. The Victory Liberty loan is offered, must be refunded, and bonds or notes must be issued to replace them. To accomplish this purpose, to withdraw from the treasury the treasury notes bearing interest at a rate which is necessary to make this refunding possible, will result in a cash drain, to specify in the act the maximum amount of interest at a figure sufficient to cover the continuing, would be costly because the maximum would surely be taken by the public as the minimum."

Discussing his suggestion that authority be given to issue bonds similar to the successful British war bonds, Mr. Glass said that payment of a slight premium at maturity would have a number of advantages over an increase in the nominal interest rate, carrying an inducement to saving and retention of the bonds, tending to limit depreciation, probably having a less injurious effect upon the market value of existing issues and making possible more exact computation of the effective interest rate to be borne by the bonds or notes.

A fractional semiannual interest payment involves infinite annoyance to bond holders, which would be avoided by a small premium only at maturity, the secretary pointed out.

Exemption from taxation to be carried by the new issue, Mr. Glass said, would not be greater than that conferred in the first Liberty bond act nor less than exemption from state and local taxes.

"Whether the needed attraction should be found in a device aimed at interest in additional exemptions from taxation or by a combination of both would be unwise to determine now," Mr. Glass declared.

"The cessation of hostilities, the discontinuance of war work, and the consequent loss of the millions of patriotic Americans of small means, who subscribed so liberally to the second, third and fourth Liberty loans. They will, I know, subscribe and subscribe largely to a Victory Liberty loan. But whether it be in their power to subscribe as largely as they have subscribed for bonds of other loans I do not know. In any event, it is essentially in their interest that an obligation be devised which will not only be attractive to them in the first instance, but which will have such characteristics as will tend to insure the maintenance of its market price after the drive is over."

Protection Present Holders.
Mr. Glass added that it was essential to devise some plan for protecting the holders of existing Liberty bonds, suggesting that additional exemptions from taxation be given those who subscribe to the new issue.

Immediate steps to set up a sinking fund for the redemption of the war debt was recommended.

Provisions to finance the purchase of government bonds by the allies were declared necessary because of the temporary exhaustion of European countries and the transition of the United States from the status of a debtor to a creditor nation.

HOW RISES 1500 CHICKENS

After Being Relieved of Organic Trouble by Lydia E. Pinkham's Vegetable Compound.

Oregon, Ill.—"I took Lydia E. Pinkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my foot to the floor and could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year, it made it very hard for me."

"I saw the Compound advertised in our paper, and tried it. It has restored my health so I can do all my work and I am so grateful that I am recommending it to my friends."—Mrs. D. M. ALTHUS, R. R. 4, Oregon.

Only women who have suffered the tortures of such troubles and have dragged along from day to day can realize the relief which this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, brought to Mrs. Althaus.

Women everywhere in Mrs. Althaus' condition should profit by her recommendation, and if there are any complications, write Lydia E. Pinkham Medicine Co., Lynn, Mass. for advice. The result of their 40 years' experience is at your service.

As an alternative to the issue of bonds, he suggested authorization of issue of notes limited to \$10,000,000,000 and increase in the maximum amount of treasury certificates from \$5,000,000,000 to \$10,000,000,000, not that the three items should be at all cumulative, but that the treasury should have the power to finance the government's operation in the most economical way.

RUSSIAN JEWS KNEW NOT OF U. S. LIBERTY

NEW YORK, Feb. 14.—Jews residing in Archangel were greatly surprised to learn that their coreligionists were allowed to become commissioned officers in the United States army, according to a letter which has just been received by the Jewish welfare board from an American officer stationed in Russia. The officer wrote enthusiastically of the hospitality shown him by the Jews in the far north.

"I was invited to dinner," he wrote, "and we tasted some real Jewish food, and we were not allowed to leave until late. They were very glad to see us and were surprised that in America Jews may be commissioned officers. They tell us that they have gone through terrible experiences on account of their religion, but that now things are much improved in that respect. There were few Jewish families here before the revolution, but now about 100 Jewish families are residing in Archangel."

KENTUCKY WOMAN FOUND GUILTY OF BOOTLEGGING

HICKMAN, Ky., Feb. 14. (Sp.)—Mrs. Mitch Adams, arrested on a charge of bootlegging, was convicted in court here, this being the second bootlegging charge against her, which makes it a felony, with a penal sentence if affirmed by the circuit court. Mrs. Adams promptly appealed her case. She was arrested last week by Sheriff Walker as she stepped from a train at Fulton, having in her possession 24 quarts of bootleg whisky, or two cases.

A GREAT DISCOVERY

(BY J. H. WATSON, M.D.)

Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

As a remedy for those easily recognized symptoms of inflammation caused by uric acid—as scalding urine, backache and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, lumbago, sciatica, gout, it is simply wonderful how quickly An-uric acts; the pains and stiffness rapidly disappear, for Anuric (double strength), is many times more potent than lithia and often eliminates uric acid as hot tea melts sugar.

Anuric is a recent scientific discovery by Dr. Pierce, Chief of Staff at the Invalids' Hotel and Surgical Institute, in Buffalo, N. Y. Send 10 cents there for a trial package of Anuric.

It Fills the Bill—A dose of Dr. Pierce's Pleasant Pellets. Sick or Bilious Headaches, Dizziness, Constipation, Indigestion, Biliary Attacks and many derangements of the liver, stomach and bowels are promptly relieved and permanently cured.

But not in the way the huge, old-fashioned pill tries to do it. These little Pellets have better methods. They cleanse and regulate the whole system naturally. In other words, they do it thoroughly, but mildly and gently. There's no disturbance to the system, diet or occupation. They're the smallest in size, but the most effective in result—purely vegetable, perfectly harmless. Only one little sugar-coated Pellet for a laxative—three for a cathartic.

They're the cheapest pills you can buy, for they're guaranteed to give satisfaction, or your money is returned.

COTTON ACREAGE MEET AT NEW ALBANY SATURDAY

NEW ALBANY, Miss., Feb. 14. (Sp.)—In accordance with the program of the United States department of agriculture and the proclamation of Gov. Bilbo, the farmers of Union county will meet in this city Feb. 15 to hear discussed the topics to be presented on Safe and Sound Farming day, a movement primarily in the interest of reduction of cotton acreage and an increase in food production.

DISTINGUISHED SERVICE CROSS TO DOVER SOLDIER

WASHINGTON, Feb. 14.—The chief of staff of the army, by direction of the president, has conferred the distinguished service cross upon Sgt. Grover C. Hillard, Company K, 117th Infantry, of Dover, Tenn., for extraordinary heroism in action near Bueyrevois, France, Oct. 6, 1918. Sgt. Hillard volunteered and crossed an open space swept by machine gun and sniper fire to rescue wounded comrades.
